

Zero Touch Provision for Nuclias Unity

To begin, simply power up and connect each switch and access point. Your network will then automatically retrieve the configuration settings defined in Nuclias Unity. This streamlined approach makes deployment straightforward, even for non-technical personnel. Zero-Touch Provisioning is supported for the devices listed below. For further details, please visit <https://www.dlink.com/en/for-business/nuclias/nuclias-unity>.

Aggregation Switches	HW Ver.	Supported FW

Note:

1. **Important Upgrade Notes(Two-Stage Upgrade):** If your device is running a version lower than those listed below, a two-stage upgrade is required (install the interim version before updating to the target firmware):

*DXS-3130 AX & DMS-3130 AX Series: If lower than v1.30.000, update to v1.30.000 first.

*DGS-3130 BX Series: If lower than v2.04.000, update to v2.04.000 first.

*DGS-1210 FX Series: If lower than v6.30.16, update to v6.30.16 first.
